# DYNAMIC WHEEL CO

**PIONEERING 4WD WHEEL SUPPLIER WITH OVER  
25 YEARS OF UNMATCHED EXPERTISE IN AUSTRALIA**

Dynamic Wheel Co. offers an impressive range of the most cutting-edge alloy and steel wheels currently available in the market.

## WHEEL RANGE

At Dynamic Wheel Co., we exclusively feature 10 renowned brands including DWC Alloy (Dynamic Alloys), Dynamic Steel Wheels, Dirty Life Wheels, Icon Alloy, Raceline Wheels, Elite Off Road, American Outlaw, Ion Alloy Wheels, Mayhem Wheels and Spyder 4x4 Alloys. Moreover, our range extends to include beadlock wheels, UTV wheels, SUV wheels, van wheels, passenger wheels and trailer wheels.

## EXTENSIVE WAREHOUSE FOOTPRINT

Dynamic has an extensive reach with warehouses throughout Australia. No matter where you are located we can supply wheels to you. Our warehouse locations include Brisbane, Sydney, Melbourne, Perth and Adelaide.

## INDUSTRY EXPERIENCE

Along with an extensive warehouse footprint, Dynamic has three call centres and sales team covering all of Australia. The entire Dynamic Wheel Co. team shares a genuine enthusiasm for 4WD wheels. Contact our wheel experts for all your wheel-related inquiries.

Dynamic Steel Wheel's line-up encompasses one of the most extensive selections of steel wheels available in Australia. Each and every Dynamic steel wheel has been engineered to meet the precise requirements of the Australian market, while also providing a Structural Lifetime Replacement warranty\*.

The entire range is constructed to the utmost standards, guaranteeing optimal performance both presently and in the long run. Thanks to their enhanced thickness and robustness, Dynamic Steel Wheels are capable of withstanding higher loads without sustaining damage. Boasting the widest range of fitments in Australia, Dynamic Steel Wheels unquestionably represent the finest choice for your vehicle!

Dirty Life Wheels have been designed, developed and engineered by some of the world's top wheel minds. Dirty Life Wheel range includes wheels for both race and street applications.

Dirty Life Wheels are built with cutting-edge technology and advanced engineering, crafted with precision to deliver exceptional quality and performance in the toughest conditions.

## WHEEL FEATURES

Extensive range of wheels available including street series, beadlocks, Dual-Tek and UTV wheels.

Specialty fitments for the Australian market.

DT series features the Dual-Tek designs allows for the wheels to be used for either street use or as functional beadlocks for off-road use.

Load ratings are industry leading for off road and beadlock alloys.

Accessories - industry leading cap and spacers designed for vehicles with long hubs.

Finish warranty 1 year finish warranty.

Lifetime warranty applies to all Dirty Life wheels. The warranty covers any structural or manufacturer defects for the life of the wheel.

# DUAL-TEK TECHNOLOGY

**STREET USE OR OFF ROAD USE YOU'RE IN CONTROL**

## WHAT IS DUAL-TEK?

Dual-Tek series from Dirty Life is the ultimate DOT beadlock wheel. No longer do you need two sets of wheels for the street and off road. Mount your tyres using the standard DOT bead seat for street use or choose the functional beadlocks for off-road use.

## DUAL-TEK FEATURES

**High Load rating (1542kg)**

**Innovative Dual-Tek technology allows multiple uses from only one wheel**

**New simulated and beadlock ring**

**Customisable cap/ring/bolt colours**

**D.O.T. street legal option to mount tyres**

#### LIFETIME WARRANTY

Applies to all Icon wheels. The warranty covers any structural or manufacturer defects for the life of the wheel.

**EXCLUSIVE NEW WHEEL TECHNOLOGY!**

# AUSTRALIA'S FIRST LEGAL BEAD RETENTION SYSTEM

**INNER**  
TECHNOLOGY **LOCK**  
Patent Pending

In the dynamic world of wheels, **ICON ALLOYS** is once again setting the standard with their latest innovation – the Innerlock wheel technology. Catering to the needs of both on-road enthusiasts and off-road adventurers, the **ICON REBOUND PRO** and **RECON PRO** wheels redefine the driving experience for the modern “weekend warrior.”

## ICON ALLOYS UNVEILS REVOLUTIONARY INNERLOCK WHEELS

### WHAT IS INNERLOCK TECHNOLOGY?

Patented InnerLock technology (U.S. Patent No. 11,090,976) is an all-new way of capturing the tyre bead and retaining it onto the wheel. InnerLock uses a series of O-ring sealed, hardened alloy pins that are inserted radially on the inner side of the tyre bead to create a barrier that prevents the tyre from unseating during extreme side loads. Additionally, InnerLock wheels are lightweight, strong, don't require bolt re-torquing, and are DOT, JW, VIA compliant for the ultimate blend of on-road safety and off-road performance.

**REBOUND PRO**  
Finish Satin Black | Bronze | Titanium  
Size 17x8.5 | 5x150 5x127 6x139.7

**RECON PRO**  
Finish Satin Black | Charcoal  
Size 17x8.5 | 5x127 6x139.7

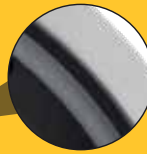

ICON ALLOYS WHEEL RANGE

### HOW DOES IT WORK?

Bead retention system features alloy pins that are removable, reusable & replaceable. Both wheels are DOT, JW and VIA compliant. Available fitment range includes offsets between 25P and 6N.

**STRENGTH**  
Aluminum alloy construction provides high-strength properties that are well suited for off-road use.

**BEAD RETAINING PIN**  
Hardened bead retention pins utilise a SAE J1926 O-ring seal and are constructed from high strength alloy that is thermo chemically treated for extreme corrosion resistance.

**HARDWARE**  
Strategically placed hardware for maximum protection. Reduced unsprung weight & rotating mass (compared to a traditional bead lock) improves handling characteristics & vehicle dynamics.

# ELITE

OFF ROAD WHEELS

Our range of Elite Off Road wheels showcases the cutting-edge designs that American 4x4 enthusiasts rave about. Elite Off Road wheels are manufactured with the utmost precision and quality. When you choose Elite Off Road wheels, you're making a statement that distinguishes you from the crowd.

**INNER LOCK**  
TECHNOLOGY

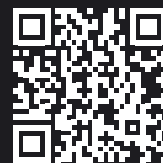

Rebound PRO & Recon PRO with INNER LOCK TECHNOLOGY offers the best of both worlds by using a robust bead retention system to keep the tyre bead secured to the wheel while also being fully DOT, JWV and VIA compliant.

### SEE IT. LOVE IT. FIT IT.

Ever wondered how your dream wheels will really look on your 4x4?

With the Dynamic Wheel Visualiser, you don't have to guess. Forget stock images—this tool lets you see our wheels on your actual vehicle. Scan the QR code to launch the Visualiser and start building your dream setup today.

Note: For all Mechanical Beadlock wheels it is the responsibility of the buyer to ensure that the selected wheels adhere to local and/or state regulations for their own specific vehicle. Please note that every state and territory in Australia has its own and unique regulations and requirements. Therefore the buyer needs to check with the appropriate state or territory authority prior to purchasing and fitting wheels to their vehicle.
